

ICS COMPATIBILITY

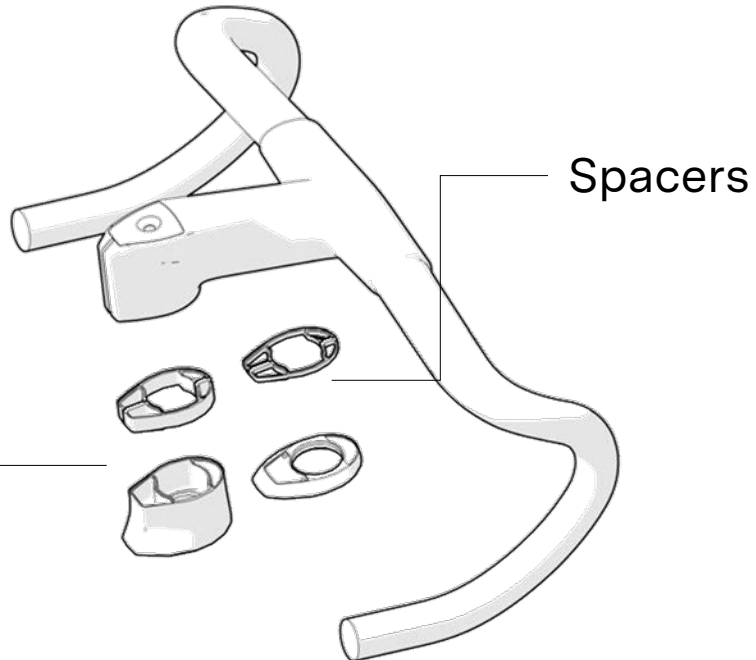

“01” Road and Gravel frameset introduced from 2016 are designed for ICS technology.

- Current ICS frames are fully compatible with any ICS cockpit and stem.
- Legacy ICS frames are fully compatible with 1st Generation ICS components.
- Legacy ICS frames compatibility with 2nd generation ICS components is limited

- The installation of ICS cockpits and stems requires the use of the correct topcone and spacer kit.
- Retrofit kits include both topcones heights and spacers.

Legacy ICS Frames

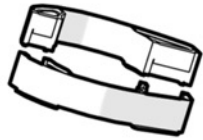

Teammachine SLR 01 Disc (2018-2020 models) and Alpenchallenge AMP Carbon (2019-2021 models) frames are compatible with 1st and 2nd generation ICS components.

Roadmachine 01 frames (2017-2019 models) are NOT compatible with 2nd generation ICS components.

Legacy ICS models (complete bikes and modules) were factory equipped with 1st Generation ICS stems.

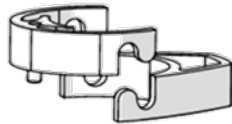

The following tables lists the kits required (topcones and spacers) to retrofit 1st or 2nd generation ICS Technology components on legacy ICS frames.
